add-O-mount

ADD S: Larger and Improved Working Area
Control • Easy Vision • Quiet Efficiency

**SCIENTIFICALLY DESIGNED MOUNT FOR ALL
ADDING and CALCULATING MACHINES**

Since its development by James L. Hutton, the Add-O-Mount has become a practical necessity for top speed, accuracy, and ease in the use of calculating and adding machines.

The Add-O-Mount is a sturdy mounting of cast aluminum and rubber weighing 3 lbs., designed to hold and cushion adding and calculating machines. It is a base for the machine, raising it off the desk and tilting it so that many practical advantages are obtained.

Reduced to 9.85

PRICE: The low price of \$16.65 will be saved many times by the improved efficiency of your adding or calculating machine operations. This price includes reference cards for decimal equivalents and interest tables.

Adjustable
for standard
machines

Better working angle

Work slides under machine

All work in
line of vision
